

The Borough of Maywood's Recycling Committee joined forces with Maywood Avenue School Art Teacher, Mrs. Genecie Azzollini and her 4th grade students, to find out just how much these future recyclers knew about our program. A poster contest was started and the results were wonderful!

Aadhya Rudani's poster was chosen as the winner because she presented so many of the materials which Maywood recycles throughout the year. Aadhya and her family were honored at the April Council Meeting with a Certificate of Commendation for her artwork and knowledge of recycling. All of the posters submitted are now hanging in the public library in the children's section for all to see and admire.
